MEMO

To: Tate Bengtson, Chief Administrative Officer
From: Kurt Inglis, Assistant Corporate Officer and Planning Assistant
Date: August 7, 2015
Subject: Revised Barnes Park Conceptual Plan

RECOMMENDATION

THAT the Enderby & District Services Commission approves the attached Barnes Park Conceptual Plan.

BACKGROUND

The Enderby & District Services Commission engaged LA West Associates to develop a conceptual plan for Barnes Park in order to align existing and potential activity features (outdoor pool, Spray Park, playground, skateboard park, green gym equipment, etc.) into a cohesive vision for Barnes Park.

In late 2014, LA West submitted a conceptual plan for Barnes Park consistent with feedback received at an on-site visit which included representatives from the Commission, Council, Recreation Services, and Staff. This conceptual plan was designed to act as a starting point for the community conversation on how Barnes Park should be developed into the future. This community conversation began through a consultation process in 2015 which involved posting the conceptual plan on the City of Enderby website and inviting feedback through a comment section, and hosting an Open House where residents could view the conceptual plan, ask questions, and provide comment. The raw comments received were compiled and categorized and then used to develop a set of recommendations for revisions to the conceptual plan; the Commission endorsed these recommendations and directed Staff to engage with LA West Associates to revise the Barnes Park Conceptual Plan accordingly.

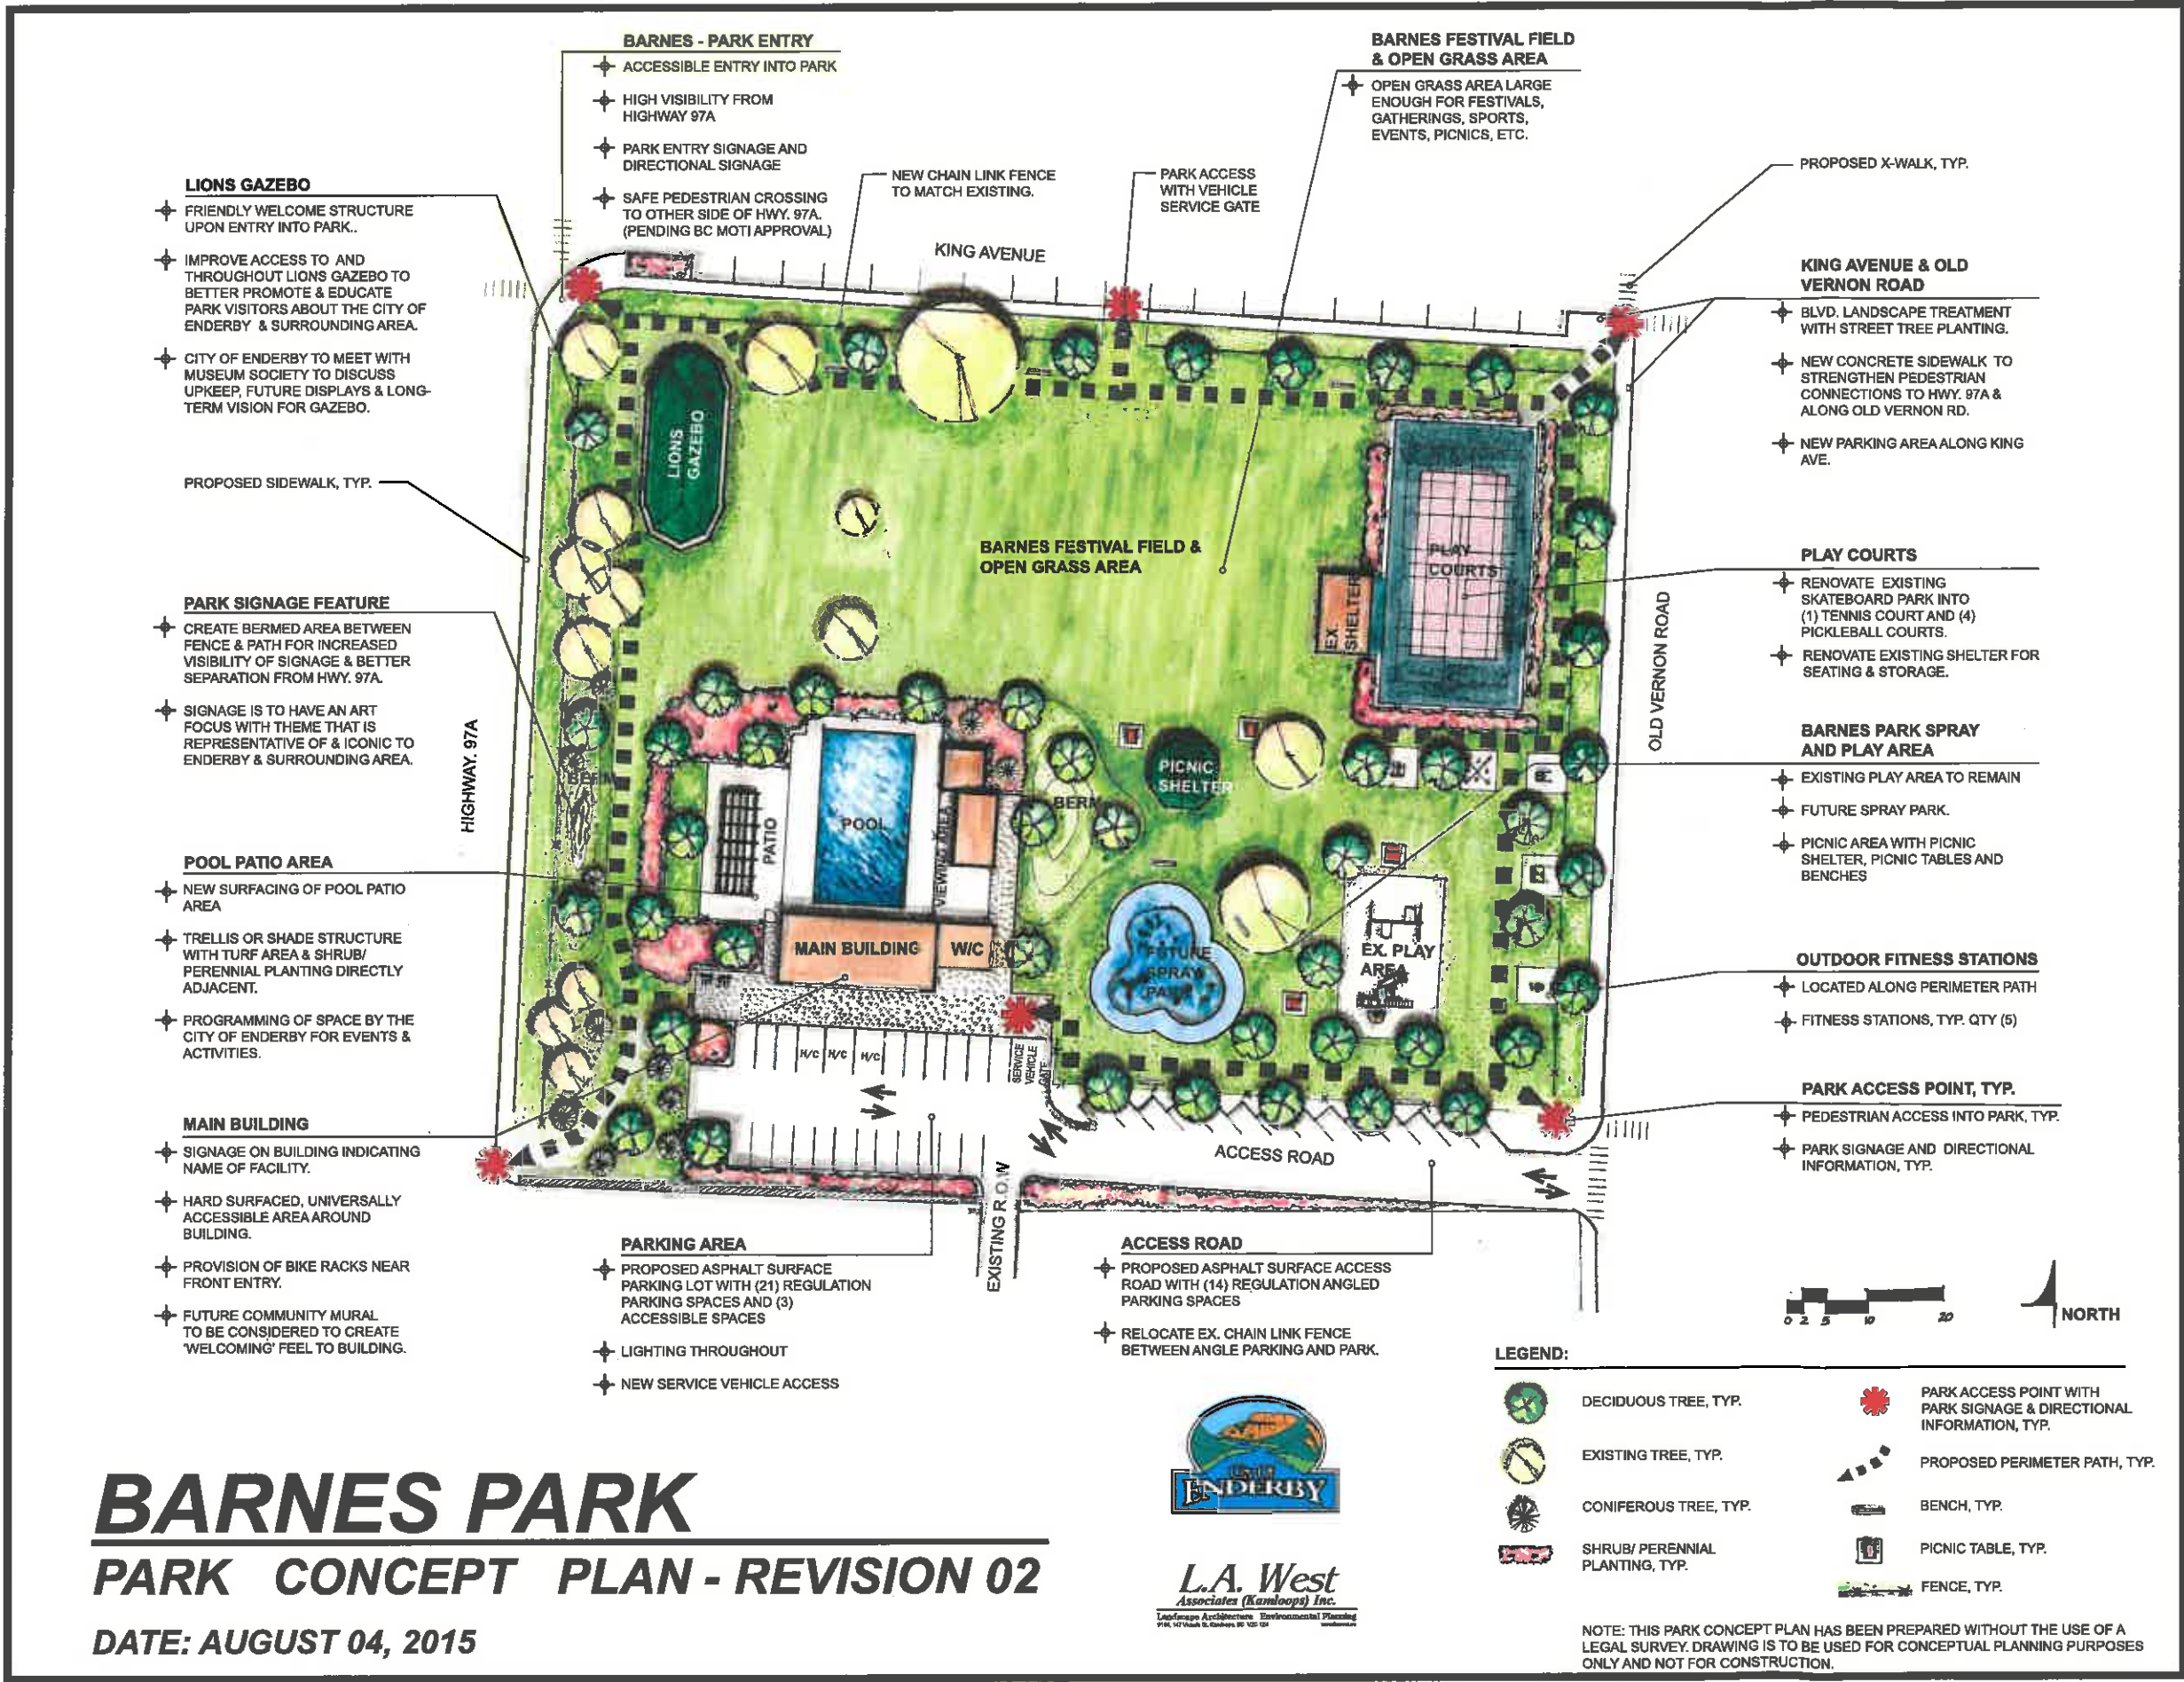

LA West Associates has since incorporated the recommended revisions and finalized the Barnes Park Conceptual Plan (attached).

Developing the Barnes Park Conceptual Plan, which identifies the type and location of specific park features, was the first step in the process of shaping Barnes Park into an integrated community amenity which meets the diverse needs of Enderby and area residents; the next step in the process involves pricing out the different park features so that the Commission may begin to prioritize implementation.

Respectfully Submitted,

Kurt Inglis
Assistant Corporate Officer and Planning Assistant

Online advertising is ongoing. Program and scheduling information is regularly posted to the Enderby Outdoor Pool Facebook page. The Enderby Outdoor Pool Facebook page went from 330 likes in July of 2014 to 432 likes in July of 2015.

A schedule of programs was created and made available at the Enderby Outdoor Pool. It was also distributed to the local schools, businesses, and posted on Facebook. Event flyers have been distributed around Enderby and District.

A Spring & Summer Recreation Guide was produced and distributed. This guide included Recreation Services program information, individual and private program information, local outdoor recreation opportunities, events calendar, and program registration information. New in this spring guide was a recreation directory created from the inventory analysis by Sheryl Hay.

The Spring & Summer issue was the first of two guides to be released in 2015, with a second, fall and winter guide being released in August. One thousand copies of the guides are set to be printed and distributed in Enderby & Area F, Armstrong, Salmon Arm, Vernon, and Sicamous.

A winter advertisement has been created, similar to the summer advertisement for recreation in Enderby. Staff has just begun working on the winter recreation guide targeted to be to print by August 1st, 2015. Local businesses will be contacted within the first week in July to purchase advertisement space in the guide.

A half page advertisement was placed in the Exploring Enderby guide. Six thousand copies of this guide are distributed all over BC.

Administration

Pool staff was interviewed and hired in May. Staff training was completed following the hiring along with administration of Pool Employee Handbook. This handbook will ensure that staff understands the organizational structure of the pool, job responsibilities, customer service expectations, policies and procedures, emergency procedures, safety rules, and chemical handling instructions.

The pool safety plan was updated to reflect all pool policy changes and BC regulations.

Arena ice bookings, scheduling, and programming have begun with a large number of ice booking requests having been submitted. Both Sheryl Hay and Kaylee Wells have been in contact with user groups both on the phone and via email. A meeting with arena users groups will be scheduled for the third week in July.

Schedule sharing continues with the Parks & Recreation staff. Phone calls and meetings are frequently held between the Recreation Services Manager and Parks and Recreation staff to ensure open lines of communication.

As of June 15th Madison Giesbrecht stepped down, although she is still available for support and will be managing the River Ambassador Program until September 2015.

Kaylee and Sheryl have been working together to update the booking policies and procedures.

A meeting was held Saturday May 2nd with ball user groups. 17 were in attendance including league representatives, Mayor McCune, parks maintenance, parents, players, city council, and recreation service staff. The meeting was lead by Sheryl Hay, and introduced the new staff that will be running recreation services. The meeting also discussed past issues and future requests.

Recreation Administration

Along with doing administration for the Chamber of Commerce, office management, and visitor center inquiries, Kaylee Wells has been scheduling times for the fall/winter 2015/2016 season.

Kaylee has been contracting for the gazebo, parks, school district facilities, and arena.

Kaylee has been heading the marketing for recreation services and the lions pool including social media maintenance, flyer creation, and branding initiatives.

As of the first week in July Kaylee will be starting winter recreation guide.

Recreation Programmer

Whilst managing the Lions Club Pool, Sheryl Hay has been in contact with many of the arena user groups regarding fall/winter 2015/2016 arena bookings.

As a part of the inventory process, Sheryl Hay has distributed a recreation survey to businesses and user groups regarding the conditions of recreation facilities and programs in Enderby and District. With the survey suggestions Sheryl has been organizing fall and winter programs.

Through recreation services Sheryl ran Physical Literacy Programs in the spring.

Sheryl has been making connection with outside groups including working with the Interagency Committee and has created a contact directory for Enderby and District recreation

THE CORPORATION OF THE CITY OF ENDERBY

MEMO

To: Enderby & District Services Commission
From: Tate Bengtson, CAO
Date: July 13, 2015
Subject: Pickleball Lines Grant Request

RECOMMENDATION

THAT the Commission provides direction to Staff on whether it wishes to provide a grant of \$731.20 to School District #83 for the painting of pickleball lines on the tennis courts at M.V. Beattie Elementary School.

BACKGROUND

Further to the inquiry at the previous Commission meeting regarding when pickleball lines would be painted at the M.V. Beattie tennis courts, the user group has now asked the Commission to provide a grant of \$731.20 for the painting of those same lines. This is the amount that the North Okanagan Shuswap School District #83 is charging in order to recover labour and material costs associated with the request. The lines have already been painted on the courts. The pickleball user group has indicated that this would be a one-off expense, although it is not known how long the paint will last nor who will be responsible for future costs, if any.

The Commission has historically provided operating grants to community hall societies, the museum, and cemeteries in Mara and Grindrod. It has also continually invested in capital improvements to its own facilities in accordance with evolving user group needs, subject to budget. In 2013, the Commission and the School District developed a new Joint Use Agreement. The relevant provisions are as follows:

3. The School District and the City intend that the School Facilities and the Commission Facilities be made available for use by the other on a without cost basis, other than incremental labour costs related specifically to the use or rental of a facility.
14. A Joint Use Committee comprised of representatives of the School District and the Commission shall...(d) Make recommendations respecting improvements to the facilities; and (e) Attend to matters incidental to the foregoing.

While the Joint Use Agreement was concerned with recovering incremental labour costs associated with scheduling a community group after-hours, the pickleball line painting request speaks to an improvement to a School District #83 facility. Funding for the request would come

from current or prior years' surplus. Staff confirm that this amount is available in surplus, although said surplus has been identified for future projects; as a result, there may be a need to access reserves or borrow more extensively than anticipated in order to implement those future projects on current timelines.

In addition to approving or declining the grant request, the Commission may wish to consider referring this matter to next year's budget or approving a partial grant.

Respectfully submitted,

Tate Bengtson
Chief Administrative Officer

MEMO

To: Enderby & District Services Commission
From: Tate Bengtson, CAO
Date: July 31, 2015
Subject: Parks, Recreation and Culture Fees Imposition Bylaw

RECOMMENDATION

THAT the Commission recommends that Council adopt City of Enderby Parks, Recreation and Culture Fees Imposition Bylaw No. 1578, 2015.

BACKGROUND

Fees and charges for parks, recreation, and culture are reviewed annually to ensure pricing is competitive and reflective of changes in service delivery costs. During the most recent review, a series of housekeeping measures were also implemented to make the bylaw more user-friendly. The proposed changes are summarized below.

General

1. Facility classes have been separated into individual Schedules to make amendments more efficient.
2. Each Schedule consists of an easy-to-read table that is more intuitive for readers.
3. Effective dates are specified to provide a smooth transition through the current season for each of the facility classes.
4. Text of a general nature that was added within the old rate structure has been shifted to Schedule A – General Conditions for Rental or Use of Facilities.
5. The Joint Use Agreement with School District #83 has been consistently referenced throughout the bylaw.

Arena – Beginning September 15, 2015

6. Ice Rental rates for adults, youth, seniors, preschool, and school will remain the same.
7. Drop-in hockey will shift to a more structured schedule to enable Arena Staff to complete planned tasks and ensure that expectations of all user groups are met. A new “non-prime” ice rental rate is proposed, which is still significantly below market rates but would allow user groups to book in advance. This will give them and Arena Staff more certainty. The “non-prime” times will be offered by Recreation Services during those

times when there is confirmed Staff availability and no demand for bookings. This will help to more effectively market non-prime ice and maximize facility usage.

8. Drop-in opportunities for individuals will continue, with specific times to be publicized. Individual drop-in rates will be very low (\$5 for adults/seniors, \$2 for youth/parents & tots). Recreation Services will be organizing shinny hockey drop-in opportunities using these rates.
9. Dry floor rates will not change. However, the discount for 7 or more consecutive days' rental has been removed; requests for discounted bookings of significant duration will be brought to the Commission for a decision on a case-by-case basis, as the configuration demands can vary drastically depending on the type of event.

Pool – Beginning in 2016

10. The Pre-School Rate will be lowered from \$3 per swim to \$2.50, which will make the rate more competitive.
11. Aqua Fit classes will increase by \$0.25 per class beginning in 2016 to help recover program costs.
12. The Swim Club's hourly rate will increase from \$24.00 to \$25.00, which does not cover the costs of the lifeguards required. This is the first increase to this cost since January 1, 2013.
13. Swimming Lessons will increase from \$37.00 to \$40.00 for 10 30-minute classes and from \$48.00 to \$51.50 for 10 45-minute sessions. This is the first increase to all of these costs since January 1, 2013.

Park Rates – Beginning in 2016

14. Ball diamond rentals will remain the same. Recreation Services will discuss the cost implications of proposed maintenance improvements with ball leagues later in the year and, if there is a desire to proceed, a contribution arrangement will be discussed to help offset the new costs.
15. Gazebo rental will go from \$110 to \$120 per day. The current charge is below market rates and the costs associated with managing a gazebo rental are going up. Rental contracts signed at the current rate will be honoured.
16. Youth rate for rental of the entirety of Riverside Park will be 50% of the adult rental rate. The youth rate was inserted specifically for the major Girl Guides event in 2014, but the rate structure was disproportionate to the rental cost for individual diamonds. As major events involving youth often request a fee reduction from the Commission, it would have the opportunity to evaluate any further discount upon request. Demand for this kind of rental for a youth event has historically been low (we have not had a rental of this type since the Girl Guides, in fact).

Recreation Services is planning an exciting array of programs in 2016, much of which will be based on its program inventory analysis. These programs are organized and delivered directly by Recreation Services in accordance with its service contract. Prices for programs organized

and delivered by Recreation Services will be determined based upon cost-recovery, with an understanding that certain programs may require several years to achieve this target.

Tate Bengtson
