### **NEW BUSINESS**

#### Interactive Artwork Discussion

Council discussed Interactive Art for the community, including approaching businesses to donate materials, collaborating with the school district, coordinating and partnering with the Enderby and District Arts Council to put out a call for artists who may wish to contribute their talents to a high-profile opportunity, and using public or private buildings as the canvas.

Council decided to focus on public buildings at this time. The intent is that the art is temporary and subject to change. These murals would not be placed on the buildings indefinitely. Council suggested that the Regent Avenue stormwater lift station building would be a good place for an Interactive Art installation.

Moved by Baird, seconded by Councillor Davyduke  
*“THAT Council directs Staff to draft a press release seeking expressions of interest from artists interested in contributing their talents to interactive art installations in the City of Enderby as well as business who may wish to support the beautification through the donation of paint and other materials.”*
