S/Sgt. Steve Mancini, North Okanagan Rural Unit Commander, Enderby Detachment, RCMP

S/Sgt. Mancini appeared before Council to discuss achievements, statistics, and current challenges the RCMP are navigating in the Enderby Area:

QUARTERLY POLICING REPORT

Committed to preserve the peace, uphold the law and provide quality service in partnership with our communities.

Superintendent Shawna BAHER

Officer in Charge

POLICING ACTIVITY REPORT ~ 3rd Quarter 2021

The Vernon North Okanagan Detachment continue to focus on the priorities of Enhanced Public Safety, Community Connections and Road Safety. To support our plan, we have implemented various initiatives including prolific and priority offender management, increased police visibility, and traffic enforcement. One method used to track our performance is to compare crime statistics with the same quarter from the previous year. Featured at the end of the report, a statistical sampling of the 15 most commonly reported Crime Codes that have the greatest impact on communities for each specific area. The statistics reflect monthly totals for July to September 2021 with comparisons from the same quarter of the previous year. This report is a synopsis of some of the recent investigations conducted by the Vernon North Okanagan Detachment and does not reflect all the tasks our police officers are working on nor does it include information that could impact the integrity of on going police investigations.

COMMUNITY EVENTS

It felt like this was the summer of fire. It started in July with hot weather and our frontline officers from the Vernon North Okanagan assisting with evacuations and alerts to neighbourhoods effected by wildfires on Hwy 97 at Clerk Road, Boss Creek (Becker Lake) and Bunting Road (Mable Lake) wildfires. By August, the White Rock Lake wildfire resulted in structure losses across the Vernon Okanagan Detachment area. Emergency Operation Centres were established within our communities to deal with the threat from fires. Emergency Social Service Centres were set up to provide support to evacuated persons. Our communities came together to assist each other with a response to support those affected by this disaster.

MEMO

To: Tate Bengtson, CAO
From: Jennifer Bellamy, CFO
Date: October 26, 2021
Subject: Financial Support for the Village of Lytton

RESOLUTION A

THAT Council receives the correspondence for information.

RESOLUTION B

THAT Council refers the correspondence to the Finance Portfolio for 2022 budget deliberations.

RESOLUTION C

THAT Council provides financial support to the Village of Lytton in the amount of \$2,964, funded through the Community Enhancement Fund.

BACKGROUND

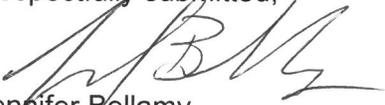

Attached is correspondence from the Regional District of Mount Waddington challenging each jurisdiction to provide financial support to the Village of Lytton in the amount of one dollar for each person in their representative area. For the City of Enderby, this would be \$2,964 per the 2016 Census.

There has been a variety of responses to this challenge across the province, including in neighbouring jurisdictions. While a few smaller communities have provided financial support, others have stated that in addition to insurance coverage, financial support is available through other taxpayer funded organizations such as Emergency Management BC and through other support agencies such as Red Cross. At this time, it is not known what financial support is needed or what the funding capacity is through the different agencies.

The City does not have funding available for this amount in its 2021 grants and donations budget. If Council wishes to provide this additional support to Lytton in 2021, the grant will need to be funded through the Community Enhancement Fund, which is used to fund special projects. Alternatively, the request can be referred to Finance Portfolio for 2022 budget deliberations.

If Council wishes to receive the correspondence for information, the request can be always brought forward at a later date, at the request of Council.

Respectfully submitted,

By e-mail to BC Local Governments

Dear Regional District Chairs and Boards, Mayors and Councils:

The people of the Regional District of Mount Waddington (RDMW) are independent, resilient, and compassionate. Although we may be a little geographically and politically isolated, we are caring, and community oriented. When trouble befalls one of our friends, we show up to help.

The Village of Lytton suffered a catastrophic loss this summer. The RDMW would like to remind the population of Lytton and the Thompson-Nicola Regional District that they do not stand alone in their time of need.

To help Lytton rebuild, the Electoral Area Directors of the RDMW will contribute one dollar for every person in their representative areas. In doing so, the Electoral Area Directors of the RDMW wish to challenge all other local governments to make a similar gesture.

This is a time for solidarity and the rebuilding of community, lives, and dreams. The Regional District of Mount Waddington is honoured to contribute.

Sincerely,

Andrew Hory

MEMO

AGENDA

To: Tate Bengtson, Chief Administrative Officer
From: Kurt Inglis, Planner and Deputy Corporate Officer
Date: October 26, 2021
Subject: Proposed Date and Time for Spring 2022 Business Walk

RECOMMENDATION

THAT Council identifies a preferred date and time for a Business Walk in the spring of 2022.

BACKGROUND

Since 2016, Enderby City Council in cooperation with Community Futures North Okanagan, has undertaken an annual Business Walk. The intent of the Business Walk is to learn more about local businesses through face-to-face interviews and to identify opportunities for further supporting community economic development; the British Columbia Economic Development Association has identified Business Walks as a key way to support business retention and expansion. Business Walks were not held in 2020 or 2021 given the pandemic situation.

Given that the pandemic conditions have shifted towards recovery, Staff are proposing a Business Walk for the spring of 2022. A spring Business Walk would enable Council and Community Futures North Okanagan to engage with local businesses as they prepare to enter the peak summer season. Community Futures has confirmed with Staff that they will be available to help coordinate and participate in a spring Business Walk.

Staff are recommending that Council identifies a preferred date and time for a spring Business Walk. In past years, the Business Walks have taken place mid-morning on a weekday.

Respectfully Submitted,

Kurt Inglis
Planner and Deputy Corporate Officer

Mayors and Regional District Chairs of British Columbia

Dear Mayors and Chairs:

I am writing to you to provide you with an overview of the proposed legislative amendments in [Bill 26](#), the *Municipal Affairs Statutes Amendment Act (No. 2), 2021* that was introduced by Minister Josie Osborne in the B.C. Legislature today.

Bill 26 proposes amendments to various pieces of provincial legislation including the *Community Charter* and the *Local Government Act* among other acts. The amendments will address a variety of topics including:

- new tools to help local governments support housing supply by streamlining their development approval processes,
- modernized public notice requirements,
- the requirement for councils and boards to consider codes of conduct, and
- community specific amendments including allowing the dissolution of the Jumbo Glacier Mountain Resort Municipality.

Together, the amendments in this bill will have meaningful impact by providing authorities that support efficient and effective local government operations. These amendments address issues not contemplated by existing legislation, and they will enable local governments to respond to circumstances in their community and provide new tools to increase the efficiency and timelines of housing development.

The Province's news release and information bulletin for the legislation are available here:

Progress of Bill 26 in the B.C. Legislature can be tracked [here](#).

Here are further details regarding the items in Bill 26. I will send a circular with further technical details on the amendments to local government Chief Administrative Officers shortly.

Development Approvals Process Review

To support the streamlining of local government development approvals process and increased housing supply, this bill proposes legislation to remove the default requirement for local governments to hold public hearings for zoning bylaws that are consistent with an official community plan and enable local governments to delegate minor development variance permits to local government staff.

The Province initiated the Development Approvals Process Review (DAPR) to improve the efficiency and effectiveness of development approvals as a way to support the affordability and timeliness of new housing supply getting to market. Stakeholders who participated in DAPR consultations identified process improvement in relation to public hearings and delegation of authority in certain matters from council to municipal staff as two initial areas of action that could have an impact on streamlining development approvals.

Modernizing Public Notice Requirements

We have heard from local governments that the existing notice requirements under local government legislation do not fully meet community needs and the realities of modern electronic communication, particularly in smaller and rural communities.

Bill 26 addresses these concerns by modernizing the options for providing statutory notice to citizens, similar to other provinces. The bill creates a new “local choice” option for local governments to determine and specify, by bylaw, the means of public notice that will have the broadest reach in their communities. This change recognizes that local governments are in the best position to determine how to notify and engage community members and provide greater flexibility for them to reach a wider audience.

Where the existing rules are working well for communities, there will be no requirement to change, and they may continue to use the newspapers for notice. However, the new rules provide additional choices and modernized options for communities that determine they have need for additional or alternative approaches.

Code of Conduct

The bill contains changes that aim to strengthen the responsible conduct of local elected officials. Codes of conduct set shared expectations for behaviour, and these amendments will add a new requirement for all municipal councils and regional district boards to publicly consider the development of a code of conduct for their council or board members.

Currently, there is no requirement for local governments to develop codes of conduct or engage in a conversation about having a code of conduct. The changes in this bill create a standardized process for elected officials to engage in regular and meaningful dialogue about how they will govern together while demonstrating their accountability to the public.

The proposed approach has been developed through a joint Ministry Working Group with UBCM and LGMA and responds to calls for more tools to strengthen local government responsible conduct and was

supported through an endorsed resolution of the membership of the Union of BC Municipalities at the September 2021 Convention.

These changes will not take effect until a regulation to bring them into force is passed – likely in Spring 2022. Additional guidance material will be provided to local governments when the changes are brought into force.

Dissolution of Jumbo Glacier Mountain Resort Municipality

Amendments in this bill will enable the dissolution of the Jumbo Glacier Mountain Resort Municipality (Jumbo). Jumbo was incorporated as a mountain resort municipality in 2013, with no residents, to facilitate the development of a ski resort in the Jumbo Valley.

Specialized provisions are required for the dissolution of Jumbo as the existing authorities are not sufficient to dissolve a municipality without residents or to accommodate changes to revert this area to the Regional District of East Kootenay. The amendments will also repeal the authority to incorporate a mountain resort municipality without residents, like Jumbo, in the future.

The provisions in this bill to enable the dissolution of the municipality at Jumbo are also integral to the agreement between the province and the Ktunaxa Nation to create an Indigenous Protected and Conserved Area in the Jumbo Valley.

Islands Trust Act Amendments

Bill 26 includes amendments to the *Islands Trust Act* that address specific requests made by the Islands Trust. The amendments will support effective governance by ensuring the Islands Trust is able to meet its specialized mandate to “preserve and protect” the Trust Area.

The Islands Trust has demonstrated leadership in reconciliation efforts in its dealings with First Nations’ interests in Islands Trust governance and activities. The proposed changes in this bill amend the *Islands Trust Act* to include a specific reference to First Nations in the Trust’s objective statement in the Act to recognize and enshrine its ongoing relationship and reconciliation efforts with First Nations.

Amendments will also enable the Islands Trust to provide financial support to third parties for activities that provide education about or preserve the environment and unique amenities of the Trust Area. This ability to support community efforts to educate about the Islands Trust environment and unique amenities complement the existing ability to support heritage and history projects that already exists in the Act.

And finally, the proposed amendments will streamline development approvals processes in the Islands Trust by enabling local trust committees to adopt and amend Development Approval Information bylaws. This change is consistent with other authorities of Local Trust Areas in the Trust and will create efficiencies in approval processes.

Powell River Incorporation Act

Bill 26 adds new targeted amendments to the unique statute incorporating the City of Powell River – the *Powell River Incorporation Act* (PRIA) - as requested by the City of Powell River. The PRIA contains extensive limitations on municipal regulation of the mill in Powell River and the “Mill Site” area of the City. These provisions protected the operations of the pulp mill at the time of incorporation but reduced activity of the mill and transfer of mill lots to the City have made these restrictions a constraint on economic development of those lots – now owned by the City.

The proposed amendments will support the City’s economic development objectives by removing city owned parcels from the “Mill Site” area to allow for further development of those parcels. This proposal is supported by the current mill owner, Paper Excellence and the Tla’amin First Nation.

I trust you find this information helpful, and I also appreciate you communicating back this information from the province to your councils and boards, to your local government staff and to your communities.

Kind regards,

Tara Faganello
