There are lots of places to take dogs if you're able/willing to drive a half hour. It would be great to have a designated space close by. Where dogs could so-cialize with other dogs and people Dog part would keep dogs safe and enclosed It would be ideal to have an off leash park somewhere connected to our trails but includes more that just a grassy field. Somewhere along the water with bushy areas to explore????? Naybe away from the busy areas. the only other thing i'd like to add is that I would not want this park if it is at the expense of giving up space that is currently allocated for the dogs, le Tury Park. I would be extremely unappy if the dogs had their beach all fury taken any because they were given a new

												Most of the dog parks I've been to have dog feces laying everywhere because some Lazy dog owners dont clean up after there dogs. In the summer months or warmer months of the
												year it stinks and that smell can can be down right horrible.
												Some dog parks people have poisoned food and left it for dogs to eat in the dog park killing
											1	those dogs.
											1	Irresponsible dog owners can bring dogs that aren't friendly and dog fights can break out.
											1	Causing serious injury.
												In a perfect world I would love a dog park because the idea of it is great, to be able to let a
												dog run around and play with others and it be clean and tidy. But the world we live in isn't perfect, giving people a dog park gives people too much freedom and that allows people to
												be irresponsible in my opinion.
								Dog feces bags, Garbage cans, Benches, Well maintained landscaping, Regularly			People not cleaning up after there dogs. People poisoning dogs, people leaving trash

												I walk the river walk often and, personally, keep my dog on leash but understand that many
												do like off-leash play, and therefore I feel a dog park close to the river walk would be well utilized. However, I feel that ball park land is prime land for ball, and would hate to see
											'	usable land in that park lost as there is definitely growing demand for ball fields (both in
											'	and out of town).
												For a dog park: I heard a suggestion to use the grassy areas behind the south end of the
												curling rink, in beside/behind the outdoor washrooms. If this is deemed large enough, it
		1									1	might be worth considering as this space is otherwise unused and not useful in easing the
												constraints on our facilities. It is already in part developed. It would need to be fenced though, being that a lot of ball spectators gather right beside this area, but perhaps a
												fenced walkway behind the fields (beside the townhouse fence-line) could lead to this
												space from the River Walk.
												My dream: The land known for being owned by the Raboux family, at the end of Regent, would be prime park land if the city could attain it and use it as a mixed space for both
												families and dogs. This would also be a great stop point along the Rail Trail (I envision
												picnic tables and washrooms). I suggest the city at least approaches the owners of this
											'	land to see if they would consider donating (even some or in-part) this land for park use, perhaps in their family name. It's a big "ask"ior dream, but if we don't ask or plan, we don't
											'	get!
											'	Open land in Enderby is limited, so i would like to see that the best use of our spaces are
								Dog feces bags, Garbage cans, Benches, Well maintained landscaping, Parking spaces, Flat		Cost to operate, Cost to construct, Dog feces and other trash, Loss of parkland for	'	used in planning even if these plans mean they we cannot develop these areas now. I'd rather that we hold a strong vision of what we want for our community and get there

												A working curling rink is working electing rink and a working cuimming pool ADE for more
												A working curling rink, a working skating rink and a working swimming pool ARE far more important. If I am responsible for other people that desecrate a park who will hold the
												owners responsible to clean up after their dogs. Is this a dog only park, can I bring a poorly
												trained pit bull? Has to be rules and constant enforcement. Raise the cost of a license by
												\$50.00 dollars a year to see if the dog owners will happily pay for this unmanageable cost. Maybe a \$500.00 fine for animals without a license If the city does not clean up the dog
												park then dog owners won't bring dogs to the dog park so no dog park is necessary. How
												about posting the cost of this idiot idea. Not just construction costs but yearly upkeep. User
												pay works for me. Bylaw officers are only as good as the city they are hired by. If City of Enderby will not enforce the bylaw, why have them. When was the last time a bylaw was
												enforced by other than toothless city employees that are held back by councils that do not
												have money to fight in court. The cutting and trimming of a 5 acre parcel will have a huge
												impact on the majority tax payers that don't have a dog or would use the dog park because of all the feces on the lawn area. The city of Salmon Arm let their parks plan use be
												designed toward soccer rather than baseball. We would get far more use from a 4th ball
												diamond than a place to walk dogs. There is a rail trail that would be ideal for walking
									If owners have control of their animals, no fence required and	Safety of dogs,Cost to construct,Cost to operate,Loss of parkland for other	how does a small dog get away from an	animals, and the owners would get exercise as well . 												Residents have said there was a dog park by the river, which is now in disrepair. Concern
												is, will dog owners use a dog park being that dog owners walk their dogs unleashed on city
												property (area by the top water reservoir) city sideways and use Francis Dr as a "dog park"
												to run and leave feces. The amount of dog feces left on sidewalks, city property and streets is unacceptable. Who is going to cover the cost for the maintenance of the dog park? Is this
												going to be included in the cost of dog licenses? Being dogs do not have to be on a leash in
												city limits, which allows the dogs to roam on private property, safety concerns for the public
					Setting aside space in an existing park and		The dog park should not be in or near a residential area. We have a beautiful river walk to walk dogs on leash and freces are not cleaned up at this location. Also on leash is not	It think it's a great idea. The small dog area is a must for safety. I have seen this work so well in other communities. They can also be used be fearful dogs to help acclimate. A temporary method to determine dog park issue to best utilize mutit use to for community base resource I do not live in Enderby but work here and regularly visit/walk. A dog park is a great idea! Having a dog park would definitely increase my motivation to walk my dogs to the park, which would increase our exercise and feelings of well being. It would also be a great place to meet other like-minded people. This would take pressure off of ball diamond area. Thanks 80°-5 Research shows that most dogs are not suitable for dog parks. My concern is the safety of animals and people. People tend not to have the knowledge that most dogs are not able to go to dog park. En 16x1 105% recall, persourcesses. Over socialize Plus the clean up. If a diease like parvo gets in the park. Where is the funding to help clean it? What is estimated cost of maintenance for park. Please considers some Research before implementing a dog park. Talk to some local professional dog trainers. I am excited about this new adventure for enderby, I have not lived here long but recognize the need for dogs to socialize. A sign could be placed at park with expectations of behavior, e.g. they must respond to owners commands (come, stay). Thank you for bringing this forward. I think a fenced dog park in a local area would be awesome. The dog park at the river is nice.

										Yest Park at arena is ideal: convenient, flat (great for seniors), adjoins riverwalk, and only lacks a few trees for shade (minor and easily rectified). Continued use would mean no cost to construct elsewhere, and importantly no loss of land/interfering with natural habitat. This area has been used for years for many, many dog owners. (BTW, would not be about at all if another ball enclosure was constructed in the park as it would be too
392 City of Enderby	None of the above	in the meantime, walk a friend's dos	Daily	Setting aside space in an existing park and constructing a dog park at that location	A short walk 20 minutes		Dod focus hade Carbada cane Flat gradue that are early accordible Renches Other	A few trees for shade, if feasible	Cost to construct Cost to operate Loss of parkland for other purposes	close to our homes.)
